MORE REASONS TO SAY YES

The durable aluminium construction is both lightweight and weather-resistant, making it suitable for outdoor use and ensuring a long lifespan. Adjustable feet allow for easy leveling on uneven surfaces, while maintaining overall stability.

Choose from sleek, modern sandblasted stainless-steel handles or customize with a colour that matches your vision. No matter your choice, these handles are both easy to use and aesthetically pleasing. And for the finishing touch, we've incorporated subtle LED lighting, creating a magical ambiance for those perfect evenings.

Built with robust construction and adorned with high-quality Blum soft-closing mechanisms these drawers ensure a quiet and graceful closure, protecting your delicate kitchenware. Even hidden drawer surfaces boast ALU composite cladding, promoting safe food storage and effortless cleaning.

The modern mixer offers superior performance and flexibility, allowing you to adjust the water flow and temperature with a simple movement. The precision-crafted edges of the worktop fit snugly around the deep sink, providing plenty of space for food preparation and washing up.

The ALU composite cladding provides a modern and refined look for your outdoor kitchen. Its sturdy composition ensures resistance to warping and wear, even in challenging weather conditions. Additionally, the smooth surfaces are easy to clean and maintain. Choose from the classic and contemporary colour combinations.

We meticulously curate a selection of high-performance equipment, from gas or induction hobs to fridges, ensuring they seamlessly blend cutting-edge functionality with elegant design. Now you can enjoy the superior functionality and aesthetics of your kitchen, which is sure to impress both you and your guests.

MORE THAN STONE

20 mm

This high-density thick technical stone retains the natural look while offering enhanced benefits thanks to its modern manufacturing process. This makes the work surface highly resistant to stains and bacteria, making it both easy to clean and durable for long-lasting use.

SAFE AND DRY

Thoughtfully designed drip edge prevents liquids from seeping into the drawers. This is especially beneficial for outdoor kitchens that face the elements, where rain and snow can pose a challenge. The drip edge deflects moisture away, keeping your kitchen utensils dry.

10 years warranty
(ALU composite & stone)*

We stand behind the unwavering quality of every element in our outdoor kitchens. That's why we confidently offer a 10-year warranty on the entire construction, encompassing the durable ALU framework, weather-resistant stonework, and robust composite materials. This extended warranty reflects our unwavering commitment to excellence and our deep trust in the strength and longevity of every detail. So, explore our options with confidence, knowing that your outdoor kitchen is built to impress for years to come.
